VOICES OF RECOVERY
SAN MATEO COUNTY**

Mission Statement

Voices of Recovery San Mateo County (VORSMC) creates peer-led opportunities for education, wellness, advocacy and support services for individuals in or in need of long term recovery from alcohol and other drug addictions, equally sharing these opportunities and support services with impacted families.

We are excited to share this request with all interested community members. Voices of Recovery San Mateo County is now selecting its first board of directors group. Please review our Mission Statement above. We are seeking interested members from the recovery community and those affected by addiction, leaders, business owners and the public at large, who are all invited to our selection process. Among the requirements of our board members, please be able and willing to:

- Attend Board meetings (2nd Tuesday of the month at 5:00 pm)
- Participate on at least 1 committee
- Commit to a term of three years as a Director
- Commit to the Mission of VORSMC and its Board
- Work in partnership with the local community, county, state, and federal agencies and organizations for the furtherance of the mission of VORSMC

We are interviewing interested applicants during the month of February 2011. For more information please contact Ray Mills by phone at 650-630-4211 or e-mail at the address listed below.

Please share this opportunity to join VORSMC with friends, family members and others who share our same interest to make positive changes and provide support within our community.

Thank you,
Ray Mills
